

70 YEARS (AND COUNTING) OF SHARING THE LIGHT OF THE GOSPEL THROUGH MEDIA

In 2017, Square One World Media celebrated 70 years of God's Faithfulness since a group of Bible College students were challenged to share the Gospel of Peace with a world recovering from war. Using the "modern miracle of radio," they reached many of their Canadian neighbours with the Gospel in a language they could understand.

Joining us for the celebrations in October were some of our ministry partners from Russia and Ukraine. Highlights for them were meeting the Winnipeg Square One team in person, and meeting people across Canada who have been praying for them and supporting them financially for years.

We enjoyed marking the many fascinating stories, dedicated people and significant events in our history. But we are also thrilled about what is happening in our ministry today.

In 2017, Beautiful Unique Girl (BUGirl) produced 20 "Webisodes with Kaylyn" that are being released on YouTube every other Friday during the current school year. BUGirl teaches scriptural truth to teen girls, particularly the truth that God loves them just as they are. Season 2 of BUGirl is in the planning stage.

Micah's Super Vlog, the children's cartoon featuring the adventures of Micah and his friends, completed 7 episodes in "The Armor of God" series. This series, soon to be launched on JellyTelly, teaches children that when they face temptations and struggles, 'It's time to get real / with metaphorical steel!'

26 episodes of "The New Eve, Season 2," a video program for Arabic-speaking women, were produced in Cairo, Egypt in 2017. They recently began airing on SAT 7-Arabic. The programs will soon be available with English subtitles at neweve.tv.

Irene Marsch's new Low German book, "My Body, a Gift from God," helps parents and educators speak confidently with children about sensitive topics such as developmental changes and sexuality. Irene combines science and faith to present the information as God's gift and plan for each one of us.

Our Spanish ministry launched a new radio program in 2017. "Realidad" features the sermons of Pastor Jorge Oscar Sanchez of California. Endorsed by Ernesto Pinto, "Realidad" is distributed to all of the 1700 radio stations that currently receive "Encuentro."

For Executive Director Shoaib Ebadi, 2017 was a year of extensive travel. He visited many of our international ministry and studio locations to gain first-hand experience with those who minister and those they minister to.

Along with the new introductions in 2017, we continued producing our established programs in English, Russian, Spanish, Arabic, Ukrainian and Low German out of production studios in Winnipeg, Bolivia, Egypt, Russia and Ukraine.

While cutting-edge technology has come a long way since 1947 – today our programs are distributed through TV, radio, the internet, social media, and in print – our vision is still the same: to share the Gospel of Peace with a hurting world, in a format and language that can be easily accessed and understood.
